

Features to be Added

① Balance in Billing

Some dealers (or) customers only pay a part of money. So, To maintain it we have to bring this.

Features

In Billing Page

- Add Amount paid (have a
+ Single click to full Amount)

Amount to be paid

(Automatically fills in when Amount paid is entered vice versa)

This Amount (Balance to be paid)

↓
Cuts Added under Each dealers (or) customers Account as Balance (cuts Added to Balance they already owe)

Inside dealer's profile

Show

Certs Added under
Each dealers (or) customer's Account
as Balance (Certs Added to Balance
they Already owe)

Inside dealer's profile

Show

Total Amount Bill $\rightarrow$ ₹ Amount
(Till date)

Total Amount paid $\rightarrow$ ₹ Amount
(Till date)

Balance $\rightarrow$ ₹ $\rightarrow$

Balance Added initially $\rightarrow$ ₹ $\rightarrow$

 Give an option to add Balance while
Creating (or) After Creating.

② Advances in Salary

→ Sometimes workers get paid salary in Advances. There may be multiple Advances for a single worker with different Amount each time. This has to be logged and subtracted while creating full salary automatically. While creating a salary expense it should show total salary - advances

⇒ Inside a worker's profile, there should be a section for advances. All should be logged month wise (or filter month accordingly). Also show total advances the month

→ miscellaneous salary can also be given which also should be able to be logged and you can enter your desired amount to the particular

a Salary expense it show total salary
- advances

⇒ Inside a worker's profile, There
all should be logged month wise
(or filter month accordingly).
Also show total advances the month

→ miscellaneous salary can also be
given which also should be able
to log and you can enter your
desired amount to the particular
Contract.

③ new tab - Bill template (which will be the bill printed)

Bill template

Editable in Bill template tab

Editable

field also can be changed (or) Edited

total

Items	Qty	Amount
_____	1	_____
_____	1	_____
Subtotal	₹	_____
Total	₹	_____
Amount paid	₹	_____
Balance	₹	_____

→ For GST Bills need to just add GST →

→ This is 58mm Bill which will be the printer type we will be using.

Subtotal	₹		total
Total	₹		
Amount paid	₹		
Balance	₹		

→ For GST Bills need to just
add GST →

→ This is 58mm Bill which will
be the printer type we will be
using.

→ Bill Appears in Billing and
gets edited As we add Each
Item and it's shown below Bill summary
and If we print it gets printed.

④ General edits

- Give ' ← ' Return Back to wherever required
- If we try to increase something like Qty using Scroller it goes up by 0.01, keep it '1'.
- Also Qty is small in bill, make it a little wide
